The Chilean Trouble is at an End.

SO SAYS THE PRESIDENT.

A Special Message Sent to Congress in Which He Says That Chili Has Apologized and is Willing to Make Reparation for the Baltimore Outrage.

WASHINGTON, Jan. 29.—There can now be no doubt that the trouble with Chili is at an end. President Harrison has sent to congress another message, accompanied by correspondence on the subject, showing that Chili really has conceded all that we have demanded. Apology has been made, the demand for Egan's recall withdrawn, as also the offensive note of Matta, and indemnity will be made for the assault on our sailors.

The president says this is as satisfactory as could be hoped for. He congratulates the country upon the happy termination of a most unhappy incident. The following is the message of the president as sent to congress:

To the Senate and House of Representatives:

I transmit herewith additional correspondence between this government and the government of Chili, consisting of a note of Mr. Montt, the Chilean minister at this capital, to Mr. Blaine, dated Jan. 23; a reply of Mr. Blaine thereto of date of Jan. 27; and a dispatch from Mr. Egan, our minister at Santiago, transmitting the response of Mr. Pereira, the Chilean minister of foreign affairs, to the note of Mr. Blaine of Jan. 21, which was received by me on the 26th inst. The note of Mr. Montt to Mr. Blaine, though dated Jan. 23, was not delivered at the state department until after 12 o'clock, meridian, of the 25th, and was not translated and its report notified to me until late in the afternoon of that day.

The response of Mr. Pereira to our note of the 21st, withdraws, with acceptable expressions of regret, the offensive note of Mr. Matta of the 11th ultimo, and also the request for the recall of Mr. Egan. The treatment of the incident of the assault upon the sailors of the Baltimore is so conciliatory and friendly that I am of the opinion that there is a good prospect that the differences growing out of that serious affair can now be adjusted upon terms satisfactory to this government, by the usual methods and without special powers from congress. This turn in the affair is very gratifying to me, as I am sure it will be to the congress and to our people. The general support of the efforts of the executive to enforce the just right of the nation in this matter has given an instructive and useful illustration of the unity and patriotism of our people.

Should it be necessary, I will again communicate with congress upon the subject.

Accompanying the message was all the late correspondence on the subject, including Chili's answer to the ultimatum, which was quite a lengthy document. As it now stands the committee on foreign affairs of the house has nothing to do, and the subject will not be brought before congress.

KENTUCKY LYNCHING.

Lego Gibson Taken from Owenton Jail and Hanged by a Mob.

OWENTON, Ky., Jan. 29.—Lego Gibson, who murdered Frank Legon, was taken from jail Thursday night and hanged by a mob. Gibson was arrested that day for shooting Frank Legon at Owenton, Friday last. Immediately after the shooting Gibson disappeared. Sheriff Shepherd and Deputy Donaway arrested him at the residence of Boswell Hunter.

When arrested he was quietly picking a banjo. He at first resisted, but was overpowered and taken to jail. After reaching the jail Gibson was very quiet, and said the cause of his shooting Legon was jealousy. They began to quarrel, and Gibson shot him five times.

The lynching was done in a very quiet and business-like way, without trouble or excitement. The sheriff was not at the jail when the mob came, and no resistance was offered. Gibson's only request was to see his mother, but it was denied.

The murder of Legon took place six miles west of here last Friday morning. The trouble grew out of a horse trade in which Gibson traded to Legon a horse on which was a mortgage to Dr. Taylor. Taylor, by proper steps, took the horse, and Legon went after Gibson, but could not find him. Gibson was dodging, but when they met on Friday morning some unpleasant words were passed between them, when Gibson shot Legon just above the hip, from the effects of which he died Sunday.

Gibson was only twenty, but had a very bad reputation. He was also a relative of Bob Bartlett, the desperado, who shot Dr. Contis' wife some time ago.

Frank Legon was a good, industrious citizen, and was recently married.

The mob was composed of about fifty men, all masked. There will probably be no attempt made to prosecute any of them.

MISSIONARIES MURDERED.

Terrible Tragedy Along the Congo River in Africa.

NEW YORK, Jan. 29.—Correspondence from St. Paul de Loanda, Africa, under date Dec. 16, says: Late advices which have come to this city from Boma, in the Congo Free State, bring news to the effect that the American mission, which is established on the Congo river in the neighborhood of the Palla Balla station, has been the scene of a terrible tragedy, in which five American missionaries—three men and two women—and seven native converts and servants lost their lives at the hands of the murderers.

It is also mentioned that all of mission

buildings, schools, residence and granaries were burned to the ground and the cultivated fields laid waste. No evidence has yet been discovered which would conclusively show who the perpetrators of these cruel murders are, but suspicion points with something like certainty to a number of half civilized Portuguese natives, members of the Lomaco tribe, who were originally taken into the Congo Free State by Explorer Henry Stanley.

OCEAN TRANSPORT LACKING.

Millions of Bushels of Wheat Ready to Be Shipped to the Starving Russians.

WASHINGTON, Jan. 29.—Miss Clara Barton, president of the American National Red Cross, in an interview Thursday night was asked what steps had been taken to ship to Russia the western contributions of grain.

She replied: "I am advised that all hope of government aid in any form is gone. I have information that in two states alone the contributions now awaiting shipment are more than sufficient for a cargo, but as no money has been provided to charter a ship, neither is there money to pay storage in New York, and for that reason the order to forward the grain has not been sent."

"What do you intend doing?"

"I shall make a statement tomorrow, calling attention to the importance of a response in this matter."

"How much will be needed for the first shipment?"

"From \$20,000 to \$25,000 will cover the loading of the first cargo at Lebanon, on the Baltic. I hope tomorrow to give you a statement fully explaining the details."

"You remember, Miss Barton, in your last statement you said the Russian government would accept our gifts at a seaboard port; will it be necessary to ask that government to do so?"

"I sincerely hope not. It would be a humiliating spectacle."

"Do you understand that the Russian government is really desirous to have our gifts of grain?"

"I wish I was at liberty to answer that as I would like to do. Do they not know at the Russian legation as well as we that tens of thousands of bushels of grain are sidetracked in the west waiting to be hauled to New York? Do they not also know the reason why it is not brought there? Let me end this interview by saying that they have again notified me today of their readiness to indicate the pier in New York city to which it can at once be delivered."

SPRINGER'S BILL.

It is Supported by the Great Wool Consumers' Association.

BOSTON, Jan. 29.—The American Wool and Cotton Reporter prints a petition to congress by leading wool manufacturers, representing the Wool Consumers' association, in support of the Springer bill.

They say: "The wool schedule of the tariff act of 1890 offers an exceptional opportunity, by amendments making wool free and relatively decreasing both the specific and ad valorem duties on woolen goods, to benefit immensely the woolen manufacturers by giving them free access to the supplies of wool of various qualities, such as all other competing manufacturing countries enjoy, and by reducing thus without injury to manufacturers the cost of their goods to them and to the consumers, while leaving sufficient protection with free raw materials, the tax on imports of competing goods would be almost entirely for the protection of labor; and, as free raw materials would greatly increase the consumption, there would be an increased demand for labor."

"High duties for a quarter of a century have failed to produce an adequate supply of wools needed for the woolen and worsted; and as wool can be made free with the result of a large reduction in cost of goods and a very little disturbance of trade, or interference with sufficient protection, it is only reasonable that the changes suggested in schedule K of the act of 1890 should be made for the benefit of the whole people."

MICHIGAN'S ONLY PENSIONER.

Death of the Man Who Suffered Unspeakingly for Another's Deed.

JACKSON, Mich., Jan. 29.—Edward Murphy, the only pensioner Michigan has ever had, has just died in this city. Murphy was sentenced to the state prison here for a murder which was committed on shipboard while he was a sailor and which was fastened upon him.

For years he suffered patiently in solitary confinement until his mind gave way. He was then put to work on a contract. For years he worked in this manner until the perpetrator of the murder confessed. He was released and as part reparation has since been receiving \$300 per year as a pension from the state. He was struck by a Michigan Central train a few days ago, receiving injuries which caused his death.

Down with the Grip.

COLUMBUS, Ind., Jan. 29.—Hon. James H. Wilson, aged above eighty, twice sheriff and twice state senator from Jennings county, is lying very ill of the grip at his home near Vernon. His wife, aged seventy, died less than a week ago. Edward Marsh, another prominent citizen, twice county commissioner of Jennings county, also died of the grip Sunday last, having been sick but two or three days. Charles Watts also died of the same disease yesterday, in Jennings county. Hon. Lewis Donohoe, of Jonesville, who represented this county in the state legislature in 1882-83, is alarmingly ill of pneumonia, superinduced by the grip.

Found in the River.

SCRANTON, Pa., Jan. 29.—The body of John Caffery, who has been missing from his home for three days, was last night found in the Lackawanna river. Foul play is suspected.

WAR IN MEXICO.

That Republic on the Eve of a Bloody Conflict.

IT WILL BEGIN IN A FEW DAYS.

Garza Will Lead the Revolutionists and Will Be Supported by Two-Thirds of the Entire Population of Mexico—He Has Over Seven Thousand Men Already Armed and Ready for the Fight, and Hundreds Joining His Forces Every Day.

SAN ANTONIO, Tex., Jan. 29.—A dispatch was received here yesterday evening from Rio, Tex., stating that Garza is now on the Mexican side of the river near that place and that he is at the head of an army from 4,500 to 5,000 well armed and mounted Mexican revolutionists. Bands of from twenty-five to one hundred men are joining him every day. It is further stated in the dispatch that Garza means fight and that the most desperate war Mexico has ever known will be opened about Feb. 1. The object of attack is said to be Las Vegas, located just across the river from Del Rio.

Garza has another band in the Santa Rosa mountain country of from 1,800 to 2,000 men, well armed and mounted, under command of General Francisco Salas, and it is a well known fact among all the Mexicans who try to find out anything about the trouble that Garza will have at least two-thirds of the entire Mexican population on his side when the proper time comes to show up.

Yesterday eighty-five Mexicans in one band, well equipped for war headed for the Rio Grande to join Garza, passed through Sonora, Sutton county, Tex. There is great excitement all along the upper part of the border, not only among the Mexicans, but among the Americans as well. Bands of the revolutionists meet at Sonora, Tex., daily and organize. They are not molested by officers of the law and are permitted to proceed on their way to Mexican territory.

More Soldiers Needed on This Side.

SAN ANTONIO, Tex., Jan. 29.—General David Stanley, commander of this military department, states that the military forces patrolling the lower Rio Grande frontier will probably be augmented by a large force of cavalry from the Indian territory. He does not believe that there is any prospect of Garza being captured soon. It is reported that the wily revolutionist leader is about to change his base of operations to territory above Laredo, which is comparatively unprotected by United States troops. In order to forestall such a movement, instructions have been issued from department headquarters here to the commanding officer at Fort Clark, Texas, to order Captain McLaughlin and his company, H. of the Eighteenth infantry, to proceed by rail to Camp Eagle Pass.

LOCOMOTIVE BOILER EXPLODES.

Five Men Killed on the Philadelphia and Reading Railroad.

POTTSVILLE, Pa., Jan. 29.—Five men were killed yesterday by the explosion of a locomotive on the Philadelphia and Reading railroad near St. Clair. The locomotive exploded while drawing a long train of empty coal cars up the heavy grade to Frackville, on top of Broad mountain, from which point the cars are lowered over the Mahanoy plane.

The killed are: Joseph Zeigler, engineer; Napoleon Paul, fireman; Jacob Turner, Ward Winstone and Henry Sands, brakemen.

This is the fifth engine of this class which has exploded within a comparatively short time. They are of the seventy-ton class and burn culm, or coal dust.

Flint Glass-Workers' Strike Off.

PITTSBURGH, Jan. 29.—The flint glass-workers' strike is off, and work was resumed this morning in all plants operated by the United States Glass company. Committees representing the strikers and the company met yesterday afternoon. After a six-hour session it was agreed that the workmen should return to their places under the old conditions, pending an investigation of the differences by a joint committee. The glass-workers consider the result a victory for their organization.

Shooting Over a Street Fight.

MANDAN, S. D., Jan. 29.—The street fight between City Editor Ireland, of The Capital, and Dan Hall, the actor, Wednesday, resulted in a shooting scrape yesterday. Hall's brother attempted to throw Ireland, when the latter drew a revolver and fired three shots, one passing through Hall's leg, another grazing his back, and the third going through his hat. Both were arrested.

Young Business Man Suicides.

WHEELING, Jan. 29.—Howard Carothers, a son of one of the oldest and most prominent families of this city, and a prosperous young business man, suicided in his room in L. A. Delaplaine & Company's building yesterday by shooting himself through the head. No cause for his act is known.

Foot Cut Off, and Died to Death.

MOUNT GRETNIA, Pa., Jan. 29.—While Martin G. Greener, aged thirty-one years, was assisting in cutting ice on Lake Conewago, he stepped between the knives, and his foot was cut off. He bled to death while being removed to his home, six miles away.

Bank Cashier Disappears.

ABILENE, Kan., Jan. 29.—Cashier W. P. Robinson, of the Farmers' bank of Hope, Kan., has mysteriously disappeared, and the bank is in the hands of creditors.

COLLISION OF TRAINS.

One Man Killed, One Fatally Injured and Several Seriously Hurt.

POTTSVILLE, Pa., Jan. 29.—A serious wreck occurred yesterday at New Boston Junction. The Lehigh Valley and Pennsylvania railroad trains use the same track north of that place and during the noon hour yesterday, while a Pennsylvania train was running from Wilkesbarre at this point, the engineer saw a Lehigh passenger train approaching at a high rate of speed. He reversed his lever, but it was too late and in a moment or so the two engines crashed into each other.

Both engines were badly wrecked and Engineer John Dietrick, of the Pennsylvania train, was instantly killed. His fireman, name unknown, jumped from the cab as soon as the Lehigh train came in sight and received probably fatal injuries. J. I. Blakeslee, who was riding on the tender of the Lehigh Valley engine, had both legs broken. Several of the passengers were badly bruised, but none seriously, except Jacob Bachman, of Mahanoy City. He sustained severe internal injuries.

There was no wire communication between New Boston and this city, owing to an explosion at New Castle earlier in the day, and to this fact the accident is attributed.

Freight Wreck.

POTTSVILLE, Pa., Jan. 29.—The Pennsylvania railroad northbound fast freight train ran into another freight train at Schuylkill Haven yesterday, wrecking a large number of cars and tearing up the track. The engine was thrown over the embankment. No one was seriously injured.

WEDDING CELEBRATION.

Two Men Probably Fatally Injured in a Fight That Followed.

INDIANAPOLIS, Jan. 29.—Con Stine was married Wednesday night and after the return of himself and bride from a dance at Parnell hall, two of the guests disagreed and a general fight began. Chairs were broken, windows smashed and doors mangled.

The noise of the fight attracted Patrolmen Maroney and Hoover, who were some squares away, and they ran in to quell it. Thomas McCarthy wrenched a picket from the fence and struck Patrolman Maroney a swipe in the face, almost fracturing his jaw, and laying open the flesh for about four inches. The officer, to save his life, pulled his revolver and fired three shots. The first bullet went wild, the second struck McCarthy in the hand, and the third in the leg.

Police Surgeon Earp examined the wounds and pronounced them not of a serious nature, while Maroney's injuries are very severe. The officers managed to get Dan McCarthy, Thomas McCarthy, Michael Scurlan and Michael O'Connell to the station house, where they were slated for assault and battery and disturbing the peace. Their trials were continued until Feb. 9. Warrants will be issued for the entire party.

GOT AWAY WITH THE BOOTY.

A Jewelry Store and Postoffice Burglarized.

WILLIAMSPORT, Ind., Jan. 29.—The jewelry store of E. A. Biggs, of this place, was entered early Wednesday morning and robbed of jewelry, consisting principally of rings, pins and charms, amounting to \$300.

The postoffice is in the same room, but the only loss there was, in pennies, amounting to \$1, and two mail keys. The safe standing in the lobby of the postoffice was blown open with powder, which had been poured through a hole the burglars had drilled through the top of the safe. The door of the safe was thrown out and across the room, falling against the wall with such force as to break the plastering.

The burglars were traced going along the Wabash railroad track by the articles of jewelry they had lost in their flight. William Swarts, who was sleeping in a back room, was awakened by the loud report of the explosion, and hastened to the scene. Arriving there he fired two shots at the burglars, but without effect. The safe is ruined. There is no clew to the parties, and nothing has been heard of them yet.

Wayward Girl Brought Back Home.

MARTIN, O., Jan. 29.—E. Martin, proprietor of the Will House, returned home last night with his pretty wayward daughter Maggie. A show troupe, dubbed the Tappan Burnside company, landed here last week and they burst asunder. The manager skipped with the roll. Miss Martin was persuaded to help them out of their predicament by acting a simple part on the stage. She became so infatuated with her success or with one of the company that she made arrangements to accompany them when they got funds. They left Monday. Miss Martin was arrested in Columbus and returned.

Not Too Sick to Hang.

RICHMOND, Ky., Jan. 29.—William Puckett, who is sentenced to be hanged at Irvine, Ky., Feb. 5, will meet his doom on that day. He was reported several days ago to be in a dying condition, and asked the governor for a thirty days' respite. An examination was made by Dr. Gibson, of this city, and Dr. Turner, of Irvine, and they certify that they could find nothing in his case to justify a certificate asking for a respite. The sheriff of Estill county has proceeded to erect the scaffold for the execution which will positively occur Friday.

Aged Couple Cremated.

JOHNSTOWN, Pa., Jan. 29.—A fire at Elton, a village seven miles southeast of this city, last night, burned the residence of Samuel Kring and another building. Kring and his wife were burned up in their home. He was seventy-nine years of age and she eighty-three. The fire originated from an overheated stove in the bedroom.

FRIDAY, JANUARY 20, 1892.

UNCLE SAM'S all right, but what's de
Matta with Chili?

THE Dover News entered upon its sixth
year this week. It is in excellent hands
and a credit to the town.

A GENTLEMAN remarked yesterday that
there has been "more politics than
patriotism" in all this talk about Chili.
A good many agree with him.

THE straw board trust has sent the
prices of its product up 30 per cent. and
the 65,000,000 people of the country
who use anything put up in paste board
boxes will have to "stand and deliver."
The many will be robbed to contribute
to the wealth of the few who compose
the trust.

SECRETARY FOSTER admits that Uncle
Sam's sinking fund will be \$11,000,000
short of the requirements this year, and
\$30,000,000 short next year. The St.
Louis Republic remarks that "the Re-
publicans have not only squandered the
bank note redemption fund, but they are
making the sinking fund fly as fast as
they can get it."

"CLEVELAND, Tariff Reform and Honest
Money." "These are the watchwords
of the Democratic party to-day," says
the Democrat of Hunterdon, N. J. And
the Democrat truly says from Maine to
California there is an unbroken column
of earnest men giving voice to these
watchwords. The most ardent follower of
Senator Hill will concede that with
Cleveland to lead and with "Tariff Re-
form" and "Honest Money" inscribed
on our banner, the party would march to
almost certain victory next November.

LEGISLATIVE DOINGS.

A Bill to Create the Office of Steno- grapher—Mathers' Resolution Tabled.

Senator Poyntz introduced a bill to cre-
ate the office of stenographer of the Cir-
cuit Courts of the judicial districts of this
Commonwealth.

Senator Daum wants the local option
law in Berlin precinct, Bracken County,
repealed, and has introduced a bill for
that purpose.

Representative Mathers' resolution to
provide for relieving the overcrowded
asylums by placing the aged incurable
inmates in their respective county alms-
houses at the expense of the State was
tabled by a vote of two to one. The Lou-
isville Times' Frankfort correspondent
says: "Dr. Frazier spoke forcibly against
the principle and wisdom of the resolu-
tion. Then Mr. Myers arose, and in a
ten-minute speech, berating the senti-
ment that would curtail instead of in-
crease the benevolence of the State to-
wards her unfortunate, brought out the
applause of two-thirds of the House and
closed by a motion to table the resolution
before it was ordered to its third reading,
which was done."

The House Committee on Court of Ap-
peals and Superior Courts has decided to
report favorably both of Mr. Stephenson's
resolutions. The first provides that after
1894—when the Superior Court will lapse—
the Court of Appeals shall consist of
seven Judges. The second provides for
the redistricting of the State by this Leg-
islature into seven Appellate Court dis-
tricts.

Senator Hutchison introduced an im-
portant bill to prohibit the collection of
tolls on Sunday by turnpikes or gravel
roads or toll bridges.

Senator Shearer, of Wayne, proposed
a bill to make the punishment for shoot-
ing on a public highway or at any church
or school the same as that prescribed by
the General Statutes for carrying conceal-
ed deadly weapons.

A resolution is pending to instruct the
Commonwealth's Attorney at Jefferson
County to institute proceedings on the
bond of County Clerk Webb to recover
the commission of the Auditor's agents
for the collection of the delinquent liquor
license taxes in the city of Louisville.

In the Senate Thursday, the House
amendment to the Hoertz lottery bill,
which provides that lottery litigation
shall be so advanced on the dockets of
the courts that speedy judgment may be
had, was concurred in.

Senator Cockrill offered a bill to pro-
hibit the construction of barbed wire
fences along highways or between farms,
except by consent of the parties on each
side.

The Judiciary Committee reported on
the matter of joining more than two
counties in Legislative districts. Senator
Breckinridge and Downer had a minority
report, in which they claim that, if
necessary, more than two counties may
be joined. Senator Lindsey spoke for the
majority and Senator Downer and Breck-

inridge for the minority report. The
matter was postponed till next Wednes-
day, in order to give Senator Newman a
chance to speak in opposition to the
minority report.

Senator Galloway's bill to give rail-
roads whose charters were preserved by
the Constitution two more years in which
to complete construction already begun
was debated at some length, but finally
postponed.

In the House Mr. Bashaw's bill pro-
posing to reduce the legal rate of in-
terest from six to five per cent. was the
subject of much debate. Mr. Bashaw
made the first speech for it, and was fol-
lowed by Mr. Kriger, of Louisville, and
even Tom Pettit, who spoke against it,
and hoped it would not get a vote in the
House. Mr. Myers, in derision, spoke
for a still lower rate than five per cent.

The arrival of the orders of the day
prevented a vote on the question.

Mr. Simm's bill to repeal a law giving
the Sheriff of Bracken County further
time to make a settlement, was brought
up, but Mr. Hensley objected to its third
reading, and it dropped into the orders of
the day.

Blind Tom.

Blind Tom is not only a musical "prodigy,"
but possessed of a fund of humor, which
keeps the audience in the best of spirits. He always
makes his own announcements of the numbers
to be given, and his ingenious way of speaking
of himself in the third person never fails to ex-
cite merriment. Tom has greatly improved in
his playing, and his execution of compositions is
marked by expression and the true touch of a
musician. One of the features of the program
was his interpretation of the "German Tri-
umphal March," by Chas. Knicker. It was given
with spirit and grace, and the audience insisted
on an encore. Tom's engagement has proved a
successful one.—St. Louis Republic.

This musical prodigy will appear at
the court house next Monday night un-
der the auspices of the choir of the M.
E. Church, South. It will repay all to
hear him. General admission, 50 cents;
reserved seats, 75 cents. Proceeds to go
to pay for a piano recently bought by
the choir.

OUR NEIGHBORS.

at Nicholasville.

place one day last week.

Isaac Keith's family.

Several of the young people spent a pleasant
evening with Miss Mary Cord Wednesday.

were here Thursday looking after their business.
Mr. Dan Mitchell sold to Mr. John Spradley, of
New York, two fine walking and trotting horses
at fancy prices.

Mr. H. M. Warder left for Lebanon, O., with his
daughter, Miss Mary, Wednesday morning, where
she will attend school.

MAYSVILLE.

Wednesday was a bright winter day but cold.
Thomas D. Worthington is still quite poorly,
and is thought to be gradually failing.

W. W. Surley, who has been with us for some
time, will move back to his farm in Lewis County
next week.

Uncle John Worthington was buried in our
cemetery Sunday, Jan. 21st. Funeral at the
Baptist Church by Elder Simmons. Mr. Worthington
was an old friend and well known here. He
lived twenty-four years old March coming.

LEWISBURG.

A delightful entertainment was given by the
young people at the Masonic hall, Friday night
(Jan. 22). It was a "Leap Year masquerade party."
The hall was beautifully decorated, with holly
and flowers, and the happy faces of fair
young maidens and gallant beaux, the occasion
was enjoyable indeed. The hours were spent in
the "gay dance of homing beauty's train that
links grace and harmony in happiest chain."
Refreshments were served at 10 o'clock in the
hospital style characteristic of Lewisburg and
vicinity, after which dancing was resumed till
the " wee-wee" hours. The following is a list of
those present: Misses Lizzie Key of Washington,
Tillie Weckman of Pleasantburg, Marie A. Strode,

MT. OLIVET, ROBERTSON COUNTY.

The greatest of them all. It goes without say-
ing that Saturday night's event, socially, eclipsed
all former efforts in the same or similar direc-
tions. Olivet's elite was in it. The spacious
parlors of Hotel de Louisiana were packed to their
utmost with Olivet's gay and gallant. Everything
went merrily as a marriage bell. On the stony
streets of our little city rolled the carriages that
were to convey those who were wont to spend a
night of unconfined joy and glee. It was the
occasion of a Leap Year party given by the young
ladies of Mt. Olivet, and well may they feel proud
of their efforts in endeavoring to make it an
event long to be remembered in the social annals of
our community. Great credit is due Landford
Throckmorton and wife for their kindnesses ex-
tended, and especially in preparing so beautiful a
reception, which was freely paraded of by the hun-
gry horde who crowded his long and brilliantly
lighted hall. After luncheon the ball-floor was
visited, where everything pertaining to this part
of the programme shone forth in brilliancy and
splendor. We regret that space will not permit us
to further enter into details. Below we give a
description of a few who were handsomely costumed:

Miss Kate Evans: cream challis, heliotrope vel-
vet bodice, diamond ornaments.
Miss Carrie Buckler: garnet with black velvet
bodice and red point lace, rubies and diamond
ornaments, bouquet of red and yellow roses.
Miss Gertrude Chandler: black and heliotrope
challis, turquoise and pearl ornaments.

His Simple Sparrow Trap.
The crusade against the English spar-
row is developing a marvelous amount
of ingenuity. A cheap, effective and
unerring method of killing the birds is
the essential requisite to success in the
new industry.

One little fellow on the south side has
solved the problem, and has already
brought in over 100 heads. He explained
his system and the comparative merits
of it and other systems to Captain Hay-
wood.

"You see," he said, "I didn't have no
gun nor no money to buy one, an if I
had the p'liceman'd arrested me for
shootin'. An me mother wouldn't let me
poison 'em. She said it was cruel. Any-
way, you couldn't never tell whether
you got all the sparrers you poisoned.
So I just got up a scheme of my own,
me an another boy that lives on the
street I do."

"We made a lot of paper funnels out
of writin' paper 'bout half as long as a
lead pencil, the top of 'em just big
enough for a sparrow to get his head in.
We put birdseed in the bottom of 'em
an set 'em up in the alley back of our
house, where lots of the sparrers come.
The sparrers come peckin' around an
find the birdseed in 'em, an stick their
heads in to get it. Well, it's down at
the bottom, yon know, an so they just
push their heads right in, an then the
funnels stick to their heads. They can't
fly, 'cause they can't see, an b'sides it
springs 'em, so they forget to fly. Then
we come right up and catch 'em. It's
lots of fun watchin' 'em fluttarin' round
tryin' to get the funnel off. The other
boy had his funnels marked with his
name, an I had mine marked with mine,
so we'd know which was mine and which
was his."—Chicago News.

The Art of Cutting Clothes.

When we read and listen to discus-
sions of comparative value of long or
shoulder measures with those that are
short and sectional, in which one or the
other is denounced as unscientific or
impracticable, our mind immediately
dwells for a moment on a proverbially
stupid animal with long ears. The fact
is that many cutters are successful
with the first, and just about as many
with the others.

Every man cannot become a good cut-
ter. Some do not seem to "catch on,"
as the saying is, and others who seem to
do so are never able to produce any
other results than such as "make old
heads swim."

Natural ability and educational ad-
vantages generally insure success, but
years of work on the board, the ability
even to make a good coat, is no guar-
antee of the possession of that mental
equipment which is necessary to make a
good cutter.

When it requires hours of labor to fix
in some one's mind the difference be-
tween one-third and one-quarter of a
size, how can such a one expect to suc-
ceed as a cutter?

When a student is able to think quick-
ly and clearly, we confidently expect
him to become a skillful cutter, even
though he cannot make a coat so well as
many others. The fact is that to be
successful in garment cutting, as in any
other trade or profession, a man must
have brains, know how to use them and
use them as he should.—Tailoring Jour-
nal.

A Joke on the "Britisher."

I had been traveling in a railway car-
riage in the south, in company with two
very pleasant men who chanced to be
seated opposite to me at the end of the
crowded car, and had got out to "buy a
lunch," as they say, at a station, my two
fellow passengers having promised to
keep my seat for me. When I returned
to the car I found a tall, gaunt man, in
a broad slouch hat, apparently about to
take my seat, but yet not actually tak-
ing it.

A glance at my acquaintances opposite
showed me why he hesitated. Each of
them was holding a cup of coffee to his
mouth with his left hand, while his
right grasped a revolver covering the
intruder. Time being short, they were
drinking their coffee while they "kept
the Britisher" seat. The tall stranger
politely retired on my appearing, the
others put their revolvers in their hip
pockets without any remark and we re-
sumed our journey.

What amused me most of all, though,
was a glimpse I got of a solemn looking
old man about half way down the car,
who had drawn out from somewhere an
enormous, antiquated, ivory handled six-
shooter, and was holding it up with his
finger on the trigger, ready to take a
hand in any little festivity that might
arise. He looked so disappointed when
it all ended in nothing that I felt quite
sorry for him.—Contemporary Review.

IN MEMORY

OF MRS. MATHILDA WILSON, who died January
15th, aged sixty-six years, three months and nine
days. She took the la grippe, which soon devel-
oped into pneumonia and resulted in her death.
She was esteemed by her friends and loved by
her children. Her husband preceded her to her
grave eight years ago the 13th day of last March.
Mrs. Wilson was the mother of eight children,
seven of whom still live to mourn her loss—three
sons and four daughters, one daughter having
crossed over the river and entered into rest thir-
teen years the 27th of December.
She was buried in the family burying ground.
Dearest mother, thou hast left us.
And thy loss we sadly feel,
But our God who has bereft us,
He can all our sorrows heal.

RIOTS SQUELCHED.

A State of Siege at Bilbao, Spain.

MOBS DISPERSED BY TROOPS.

The Striking Iron and Copper Miners Made to Realize That the Government Authorities Were Still in Power. Strikers Arrested and Will Be Tried by Court Martial—Other Foreign News.

MADRID, Jan. 29.—The proclamation of a state of siege at Bilbao has had the effect of cowering the riotous iron and copper miners in the vicinity of that city. The local, civil and military authorities were not able to hold the rioters in check, and they had matters pretty much their own way until last evening, when General Loma and his battalions of infantry, his cannon and detachment of lanciers arrived at the scene of the disturbances.

The knowledge then dawned upon the rioters that the government did not propose to stand any nonsense. The striking miners had Wednesday attacked the troops from Bilbao sent to restore order. That night they seized a dynamite depot and made many threats of the damage they would do unless their protests against the reduction in their wages, which was the cause of the strike, were heeded. Their courage oozed away, however, when General Loma took charge of affairs, and those who had been most violent in their denunciation of the mine owners and the authorities soon assumed a more conciliatory manner.

General Loma gave the strikers to understand that should occasion arise he would shoot all rioters down without mercy. He told them that he was there to restore and maintain order and he intended to do so no matter what the cost of life might be.

This determined enunciation of the military commander's intentions had the desired effect, and now everything is quiet throughout the district.

The strikers who have been arrested will be tried by court martial.

Looking After Prince George's Health.

LONDON, Jan. 29.—The health and movements of Prince George of Wales now his presumptive to the throne, are carefully watched and daily reported to the papers. He is strongly attached to the navy, and the report that he intended to leave the service was premature. It has been ascertained on good authority that the prince desires to have a sole command, and his wish will be complied with. He will shortly be appointed to one of the finest cruisers in the service. Before he takes his new command he will probably go on a tour of Egypt in the royal yacht Victoria and Albert, until he has thoroughly recovered.

Arrested for Usury.

BERLIN, Jan. 29.—C. Farrenholz, a resident of London, has been arrested at a hotel where he was stopping here, on a charge of violating the usury act by receiving an officer's acceptance at a too high rate of interest in return for a loan. The police have seized 6,000 copies of socialist song books in the hands of a bookbinder in the Angstrasse.

Decrease of Influenza Patients.

COPENHAGEN, Jan. 29.—There has been a great decrease in the number of victims of influenza in this city. During the past week there were only sixty-two new cases of the disease reported. The number of deaths due directly to the disease or its complications was thirty.

DEATH'S HARVEST.

Two Bright Lights Extinguished by the Ravages of La Grippe.

MARION, Ind., Jan. 29.—Death took away two lives Wednesday night; a mother is prostrated with grief and a daughter robbed of her reason. City Clerk William Moore died yesterday morning at 8 o'clock of the grip. He had lived here a score of years and was an honored and respected citizen. Grief has crazed his daughter, Emma, and prostrated his wife.

Charles E. Moore, city editor of the Marion Chronicle, died at midnight. He was only thirty years old. He learned the trade of printing at sixteen, and he worked in most of the larger cities in the country. Three years ago he did newspaper work on the Cincinnati Enquirer and Commercial Gazette. He was very popular, and was a bright and clever writer.

Barrios Claims It by Five Thousand.

CITY OF MEXICO, Jan. 29.—The Mexican government has received semi-official advice from the charge d'affaires in Guatemala City to the effect that the result of the election recently held, so far as the president is concerned, is not yet known, though it is believed that Renas Barrios is elected by about 5,000 majority. It is stated he has 35,000 votes and Laforest 30,000. The result will not be definitely known until March 1, when the national assembly convenes.

HOUSE AND SENATE.

Proceedings of Both Branches of Congress.

WASHINGTON, Jan. 29.—Almost immediately after the reading of the journal in the senate, Executive Clerk Pruden was announced with the president's additional message on the Chilean affair. The vice president laid the message before the senate and it was read. The message was listened to in respectful silence.

Mr. Sherman, of the committee on foreign affairs, said: "I desire to say that I and every member of the senate. I believe, will heartily concur in the congratulations over the hopeful and honorable settlement to both parties of this unfriendly difficulty and unpleasant incident." These remarks were received with signs of acquiescence.

Mr. Chandler asked that the communication from Mr. Egan to Secretary Blaine be also read, stating that it was not long.

Mr. Egan's dispatch, with its enclosure from the Chilean minister of foreign affairs, was read by the chief clerk, and then, without further comment, the senate proceeded with routine business.

Mr. Coke, of Texas, from the committee on commerce, reported a bill providing for the construction of piers and jetties at the mouth of Ropes Pass in Texas, the expense to be jointly borne by the United States and Mexico.

Mr. Hale then addressed the senate on the subject of reciprocity. A brief running debate followed, in which Messrs. McPherson, Frye and Allison took part.

The senate then took up the consideration of the unfinished business, the La Abra claims, and Mr. Morgan concluded his argument, and by unanimous consent it was agreed to take a vote on both the La Abra and the Weil cases at 3 o'clock on Monday next.

Mr. Vilas gave notice that he would offer some textual amendments to the bills when the proper time came, so as to provide that the proposed suits in the court of claims should result in final judgments.

At 5 p. m., on motion of Mr. Hawley, the senate went into a brief executive session and almost immediately adjourned until Monday.

House Proceedings.

After the reference of several executive communications the house proceeded to consider the rules. At 12:45 the president's second message and accompanying documents were laid before the house and read. There was a general feeling of satisfaction prevalent in the house that the mooted Chilean question was to be amicably settled by diplomatic methods.

On motion of Mr. Blount the message and correspondence were referred to the foreign affairs committee. General applause followed the reading.

Mr. Allen, of Mississippi, moved that the committee on foreign affairs be composed of seventy-five instead of thirteen members, and proceeded to make a humorous speech on the question of the Chilean imbroglio.

The house then took up the report of the committee on rules, and discussion followed until adjournment.

RETURNED HOME UNEXPECTED.

A Guilty Wife and Her Sister Shot Down by the Injured Husband.

JERSEY CITY, Jan. 29.—Shortly before 1 o'clock yesterday Arthur Stockton, a tinsmith, aged twenty-nine years, of 98 Seabrick street, shot and instantly killed his wife, and then shot and probably fatally wounded his sister-in-law, Miss Mary Tierney. The murderer was immediately arrested and placed in jail. The shooting occurred on the sidewalk in front of where the Stocktons lived.

The three were seen talking earnestly just before the shooting, and all appeared a good deal excited. Suddenly Stockton drew a revolver and, placing the muzzle near his wife's head, pulled the trigger, the ball entering near her eye. Then he turned toward Miss Tierney and shot her in the back. Mrs. Stockton died in a few minutes and Miss Tierney was taken to a hospital, where she lies in a critical condition. The probable cause of the shooting was jealousy. Mrs. Stockton was a very comely woman, and, according to the murderer, addicted to flirting.

Stockton told the police that he had killed his wife purposely for breaking her marriage vows. She and her sister, he said, during his absence attended a ball Wednesday night and were accompanied home by John E. Dunn and John Brennan, the latter a city official. The men remained with the women at the Stockton house until Stockton reached home at 1 o'clock yesterday afternoon, when he surprised them. He fired two shots at the men, but the bullets were wide of the mark and the men ran away. Then the women ran into the street, followed by Stockton, who, after fiercely upbraiding them, shot them as above.

A Similar Affair in Nebraska.

SOUTH OMAHA, Neb., Jan. 29.—John Kissky, a boarding house keeper, has for some time suspected his wife of infidelity. Last night he unexpectedly returned home and found Thomas Williams and Henry Leonard, boarders, in her bedroom, the former being in bed. Kissky at once began shooting. Leonard received a bullet in the head from which he will die. Williams was wounded in the back and is in a precarious condition. Kissky tried to kill his wife also, but was prevented by the police. He then tried to shoot himself, but was again foiled, and is now in jail.

Fire in a College Building.

BLOOMINGTON, Ind., Jan. 29.—The Indiana university was again scorched by fire yesterday. About 7 o'clock fire was discovered in the boiler and engine house, and the building was burned. The loss will reach \$1,200 with no insurance. Fortunately the building was located at a safe distance from the university halls and no further damage was done than to cut off the heating supply of Wylie and Owen halls. John Campbell, the janitor, who lived in the residence part of the building, lost everything.

CHARLESTON, W. Va., Jan. 29.—Robert Christian, forty-five, was killed by his own son, Richard, twenty, near Elk Horn, McDowell county. The deed was done with an ax.
